

Experience

Jakob Dahlin
Design Engineer
New York, NY

Founder, Design Engineer & Architectural Photographer

Design Engineer with 15+ years of experience designing and building customer-facing products across frontend development, visual design, and digital experiences. I build customer facing products in React, Next.js, and TypeScript, with a focus on usability, performance, accessibility, and visual craftsmanship. As the founder of an independent product and creative business, I designed and developed a proprietary image licensing platform that supports search, ecommerce, licensing, and digital asset delivery.
